

THOUGHT LEADERS 2019

# HACK SHAPE INNOVATE

What does the *future* of management  
and leadership look like?

Featuring the ideas and actions  
discussed live on stage by **Eric Ries**  
at Implement Thought Leaders  
2019 and streamed directly to  
universities.

## → The idea

This is an opportunity for students, teachers and the school to learn directly from one of the world's most recognised thought leaders within entrepreneurship, Eric Ries. After a short introduction, we'll watch a livestream direct from DR Koncerthuset in Copenhagen where Eric Ries will discuss the realities facing organisations today and explore what mindsets need changing and which actions need taking in order to create the organisations of the future. Following that, a team of Implement consultants will facilitate a collaborative workshop where you will get the chance to hack future business realities.

## Programme

**Introduction** by Implement Consulting Group

### **Livestream from Thought Leaders 2019**

Agile organisations for real, including Eric Ries's keynote and open discussion around the challenges facing organisations aiming to become more agile and innovative.

### **Hack, shape, innovate collaborative workshop**

What does the future of management and leadership look like? What lessons can we learn from startup successes? How can we create organisations more fit for humans and fit for the future?

### **Time**

Friday 12 April 2019  
08:30 – 12:30

### **Universities**

Aarhus University  
Copenhagen Business School  
Technical University of Denmark  
BI Norwegian Business School
